

# Leave the Skunk Outside

Your Customers will Appreciate the "Fresh Aire"

Introducing...

## ourfresh™

The modern solution to "aire-care"

Tired of putting up with metered aerosol's clouds of wet, sticky solvents, and propellants? Then, put up **ourfresh**

### Dry Fragrance Technology

Liquid-free, leaves no sticky residue

### Eco Friendly Refills

100% recyclable, contains biodegradable additive and is VOC compliant

### Superior 30-Day Performance

Consistent fragrance release from day 1 to day 30

### Smart & Efficient Technology

Innovative Smart program ensures an equal fragrance release over 30 days. Contains a light sensor to conserve battery life so the unit only works when the room is in use. The smart chip controls the programming so the fan runs sparingly in week 1 and gradually turns more frequently over the 4 week period, helping release the same amount of air freshener daily over 30 days.
