## About this Product

Fortiseal-iT is a highly effective Solvent-based impregnating sealer formulated to help protect both hard and soft surfaces from water and oil born stains. This sealer provides an invisible barrier resistant to stains, while allowing the surface to properly breathe. FortiSeal-iT is a Ready to Use, solvent-based acrylic fluoropol-ymer, impregnating sealer. FortiSeal-iT is formulated to provide a repellent barrier on surfaces such as Carpet, fabrics, leather, upholstery, concrete, grout, Saltillo, travertine, limestone, granite, marble, slate.

## Directions

**SOFT SURFACE DIRECTIONS:** Carpet, Fabric, Upholstery, Leather Be sure to first clean any surface before applying sealer. Do Not Mix the product with water. This is a Ready to Use product. Pour FortiSeal-iT into a pump-up sprayer. Holding the sprayer 6 to 10 inches from the surface, mist the surface to be sealed being sure to cover the entire area. Try to wet the surface evenly for best results. Allow the surface to dry completely before returning to normal use. The product is fully sealed after 24 hours. **HARD SURFACE DIRECTIONS:** Concrete, Grout, Natural Stone Be sure to first clean any surface before applying sealer. Do Not Mix the product with water. This is a Ready to Use product. Pour Fortiseal-iT into a pump-up sprayer. Holding the sprayer 6 to 10 inches from the surface, spray the surface to be sealed being sure to cover the entire area. Once the surface has been sprayed, using a Microfiber mop, evenly spread the product across the surface. If sealing grout, make sure to spread the product down into the grout lines. Allow the product to air dry. Typically the surface will be dry in 2 hours. After the floor is dry, spray hear with sealer and then wipe dry Use the product in a well ventilated area with air movement. Do not inhale the fumes.

## PRECAUTIONARY STATEMENT
